

## Brad Leath

---

The legend of Brad Leath began in a small rural town (Westmoreland) in northern middle Tennessee. He grew up farming and being active in sports and outdoors. His interests in medicine fostered a degree in Chemistry from Vanderbilt University. He then followed a non-traditional path to medicine. He spent a short career as a real life crime fighter outside of Nashville, TN. He met and married his wife during this time. His journey through medical school started in the Caribbean and ended in West Virginia where he received his Doctorate of Medicine from Marshall University Joan C. Edwards School of Medicine. He was able to come home to Tennessee for his residency. He enjoys spending time with his family, which now includes his two children, and when time allows being outdoors hunting, fishing, and working on the family farm.
